

DANNY CHAMBERS MP

PARLIAMENTARY REPORT BACK

SUMMER 2026

My report back on...

**COST OF LIVING ACTION
BETTER LOCAL NHS SERVICES
AN END TO SEWAGE DUMPING**

FIX OUR NHS

① Protect and improve Winchester A&E

After years of under-investment, Winchester Hospital has been left to deteriorate. But instead of carrying out repairs, the government has spent millions of pounds on a field in Basingstoke, for a hospital that might never be built.

Danny is pressing the government to urgently fund the repairs and improvements our hospital, staff, and patients desperately need.

We need investment in Winchester Hospital now.

② More appointments and faster access

Danny is calling for more GP, dentist, and mental health appointments, alongside better access to diagnostics and specialist care, so fewer people end up in A&E because they can't get help elsewhere.

Fixing access to services to protect our A&E.

③ Better social care to free up beds

On average 160 local people who could return home are stuck in hospital because there is no social care package in place.

Danny is campaigning for more social care funding so that patients can return home, freeing up beds for patients who need them.

We can't fix the NHS if we don't first fix social care.

“Our hospital is amazing because of the dedicated staff who work there, but patients and staff deserve the very best facilities.

I'll keep fighting to protect Winchester A&E and secure the investment our hospital needs.”

Danny Chambers MP

ACTION ON THE COST OF LIVING CRISIS

ENERGY AND TRAVEL COSTS

Danny and the Lib Dems have lobbied the Government to cut energy bills, lower rail fares, cap bus fares and reduce fuel duty. Danny opposed cuts to the Winter Fuel Payments forcing the government to reverse the cuts.

SUPPORTING LOCAL JOBS

Danny is working in parliament to secure reforms to business rates and targeted tax changes to reduce pressure on small businesses, helping to support local jobs and keep prices down.

MORE MONEY IN PEOPLE'S POCKETS

Danny has campaigned to allow families to keep more of what they earn, and for measures to support lower-income workers, and reduce student loan repayments.

PROTECTING OUR COUNTRYSIDE

PROTECTING THE SOUTH DOWNS

Danny and the Lib Dems led the campaign to force government to back down on weakening protections for nature and the landscape in our beautiful national parks.

END SEWAGE DUMPING

Danny has been working to stop water companies dumping sewage into our precious chalk streams. It is time for a proper regulator with powers to end sewage dumping, and to hold water bosses to account.

RIVERS NOT ROADS!

Danny spoke in Parliament about the blight of 4x4s driving through the River Meon at Droxford, damaging plants and wildlife. He is calling for the County Council to take urgent action.

'GREENEST EVER MP'

After promising to be Winchester's 'greenest ever MP', Danny backed Lib Dem laws for solar panels on all new builds and to boost the restoration of natural habitats. Protecting our environment and countryside is incredibly important to Danny and central to his work as your MP.

SPEAKING UP FOR WINCHESTER IN THE HOUSE OF COMMONS

Including the communities of Alresford, Bishops Waltham, Colden Common, Kings Worthy, Swanmore, and the beautiful villages of the Itchen, Dever and Meon

FROM SURGERIES TO PARLIAMENT

One of Danny's first meetings after being elected was with a group of parents concerned about the impact of addictive social media and harmful online content on children and young people's mental health.

Since that meeting, Danny has consistently raised this issue with ministers and in the House of Commons, including his campaign to regulate AI Chatbots.

“ Can I help?

Helping my constituents is the most important part of my job. Every week, my team and I help people with issues such as housing, utility companies, SEND, the NHS and problems with government departments.

If I can help you, please get in touch.”

FIGHTING FOR BUS SERVICES

Danny has presented a petition in Parliament, calling for the County Council to restore vital bus services including the Henry Beaufort Bus and the 61 service.

He has also led the campaign against Hampshire's bus cuts and to retain services across the area.

BRITAIN'S DEFENCE

Danny has visited troops at home and abroad to find out about the challenges facing the armed forces.

He has also opposed plans to close Winchester's Army Training base before its replacement is opened.

STANDING UP FOR FARMERS

Having grown up on a farm, Danny understands the difficulties facing the farming and rural communities. Danny strongly opposes the family farm tax, and any measures which would force British farmers to compete with cheap lower standards and imports.

GP GUARANTEE

Danny has led the Lib Dem campaign for a GP Guarantee in all new housing developments to ensure that they are properly served and there is no strain on existing services.

FIGHTING FOR ANIMAL WELFARE

Danny's Private Members Bill changed the law to ban the import of puppies and kittens under 6 months old, which were often being sold by criminal gangs, and of animals who have had their ears cruelly cut off.

SUPPORTING LOCAL BUSINESS

Danny regularly meets local businesses and raises their concerns with ministers.

He wants to see the government invest in skills and infrastructure, and fix our relationship with Europe.
